

## Financial Aid Informational Workshop

On Wednesday, October 11, 2017 (snow date October 18), the Guidance Department at Hudson Senior High School will hold its annual Financial Aid Informational Workshop for parents and students. The informational workshop will be held in Room 22B, and it will begin at 6:30 p.m.

We are especially pleased that Ms. Joel Phelps, Director of Financial Aid at Columbia-Greene Community College will be our presenter. She will share knowledge that can give you important advantages in your preparation of your application for Financial Aid.

Ms. Phelps will explain the uniform method by which all colleges compute financial aid awards. She will also offer pointers on such topics as how to present your case favorably as you apply for financial aid and how to evaluate the financial aid offers at different colleges. Most importantly, you can ask her any question you want, and you will get an honest answer based upon her experience.

Since financial aid is an important part of the college decision-making process, we consider it vital that families gain an early understanding of their own financial aid needs and opportunities. That is why we are extending this invitation to current high school Juniors and their parents.

**NOTE:** Seniors and parents, this is the first of a two workshop series. The second workshop on Wednesday, November 1, 2017 (snow date November 8) will guide participants through the online application process (see flyer).

Hope to see you there!
